NELSON MANDELA
UNIVERSITY

This document provides an overview of the Public Participation activities for the development of the Seekoei Estuary Management Plan. Original documents are scanned in the single pdf document (Seekoei Estuary original public participation documents). Two public meetings were held on 9 October 2017 and 26 February 2018. Eight other public participation meetings addressing specific issues were discussed. A summary of these meetings and stakeholder input can be found in the pdf document (Seekoei Estuary original public participation documents). Written submissions from the public are included. The Seekoei Estuary Management Plan is a collaborative document that benefitted from the input of all those listed in the tables below. We thank everyone for their input and active participation.
