PART 2 (OF 4): PRICING DATA

- C2.1 Pricing Instructions
- C2.2 Pricing Schedule and Summary

C2.1: PRICING INSTRUCTIONS

PREAMBLE TO THE BILL OF QUANTITIES

Pricing Assumptions mean the criteria as set out below, read together with all Parts of this contract document, which it will be assumed in the contract, that the tenderer has taken into account when developing his prices.

1. The short descriptions given in the Pricing Schedule below are brief descriptions used to identify the activities for which prices are required. Detailed descriptions of the activities to be priced are provided in the Scope of Work.

2. For the purpose of the Pricing Schedule, the following words shall have the meanings hereby assigned to them:

Unit:	The unit of measurement for each item of work.
Quantity:	The number of units of work for each item.
Rate:	The agreed payment per unit of measurement.
Amount:	The product of the quantity and the agreed rate for an item.
Sum:	An agreed lump sum payment amount for an item, the extent of which is described in the Scope of Work, but the quantity of work which is not measured in any units.

3. A rate, sum, percentage fee and/or price as applicable, is to be entered against each item in the Pricing Schedule. If a nil rate (i.e. "nil" or "0.00") is entered against an item, it will be considered that there is no charge for that particular item. **An item against which no rate (or rates, in the case of rate categories if provided) is/are entered, or if anything other than a rate or a nil rate (for example, a zero, a dash or the word "included" or abbreviations thereof) is entered against an item, it will also be regarded as a nil rate having been entered against that item, i.e. that there is no charge for that item.**

4. The rates, sums, percentage fees and prices in the Pricing Schedule are to be fully inclusive prices for the work described under the several items. Such prices and rates are to cover all costs and expenses that may be required in and for the execution of the work described in accordance with the provisions of the Scope of Work, and shall cover the cost of all general risks, liabilities, and obligations set forth or implied in the Contract Data, as well as overhead charges and profit. Time based rates shall include for all payments to administrative, clerical and secretarial staff used to support professional and technical staff.

5. Where quantities are given in the Pricing Schedule, these are provisional and do not necessarily represent the actual amount of work to be done. The quantities of work accepted and certified for payment will be used for determining payments due and not the quantities given in the Pricing Schedule. In respect of time based services, the allocation of staff must be agreed with the employer before such services are rendered.

6. Stage 1 to Stage 6 of Normal Services will not be based on a percentage of a construction estimate, but on the Tenderer's own independent pricing for the relevant Stages. Stages 1 to 6 for Normal Services are as defined in Par 3.2 of the Guideline for Services and Processes for Estimating Fees for Registered Persons in terms of the Engineering Profession Act (46 of 2000), Published in Government Gazette No 44333, 26 March 2021.

7. Provision for time-based services which fall beyond the scope of normal services as described in the Scope of Work has been made in the Pricing Schedule. The estimated period of involvement of each category of person must be agreed with the Employer before any work in this regard commences.

8. The categories of persons in respect of time-based fee rates for professional services shall be as specified in the BoQ for the Key Persons.

9. A higher category person undertaking lower category work will be reimbursed, in respect of time-based fees, at the lower category rate.

10. Provisional sums are provided in respect of services and may not be removed from the BoQ during pricing. Where services are to be sub-contracted out by the Service Provider, which do not exceed R200 000,00 (including VAT) in value, the Service Provider will typically be required to invite three quotations from suitably qualified sub-consultants/contractors. Where the sub-contracted services are likely to exceed R200 000,00 (including VAT) in value, the Service Provider shall follow an open tender process in respect of this work. A mark up (extra over) in respect of all other costs, overhead charges and profit will be applicable in respect of all sub-contracted services not specifically itemised in the Pricing Schedule.

11. Items for printing/copying shall be for specified contract documents, reports, manuals and drawings, excluding general correspondence, minor reports, progress reports, etc. which claimable under Miscellaneous Items at DPW rates. Payment will only be made for copies of reports and drawings submitted

to the Employer or issued, as specified or requested by the Employer, and all drafts shall be for the Service Provider's account.

12. Construction monitoring staff shall be reimbursed for travelling expenses as per the relevant Travel: Construction Stage item.

13. All travel expenses are to be priced under the relevant items (pre- and during construction).

14. While the Employer has every intention to complete the full scope of works, the Employer reserves the right to reduce or increase the scope of works according to the dictates of the budget, or to terminate this contract, without adjustment to the agreed rates, sums or fees and without payment of any penalty or surcharge in this regard. The Service Provider shall however be entitled to pro-rata payment for all services carried out in terms of any adjustment to the Scope of Work or, in the case of termination, remuneration and/or reimbursement as described in Clause 8.4.4 of the Standard Professional Services contract as amended by the Contract Data.

15. All charges in respect of attendance at meetings) and the provision of secretarial services, shall be included in the tendered basic fee for normal services (Item No. 1.1 of the Pricing Schedule).

C3.1 Description of the Works

STATUS

In the event of any discrepancy between the Scope of Work and any part of the SANS 1200 Standardized Specifications, the Bill of Quantities or the Drawings, the Scope of Work shall take precedence and prevail in the Contract.

EMPLOYER'S OBJECTIVE

The Employer's objective is the supply and installation of approximately 1.4 km of **Motto barbed wire fencing** along the outer boundary of the informal settlement located on Erf 746, Portion 62, Sea Vista. The purpose of the fencing is to prevent and control the continued illegal expansion and occupation of municipal land surrounding the settlement.

C3.2. BACKGROUND AND SITE LOCATION

OVERVIEW OF THE WORKS

The description of the project contained in the Scope of Work is intended to provide a general outline of the Contract Works and shall not be construed as limiting the work to be carried out by the Contractor under this Contract. The Contractor shall be responsible for the complete supply, delivery, installation, and commissioning of all works as described in the Contract Documents and reflected in the Pricing Schedule (C2.2).

The project entails the supply and installation of approximately 1.4 km of Motto barbed wire fencing, to be completed over a period of 14 working days. The fence will consist of timber poles with a total length of 2.1 metres, installed with 700 mm below ground level and 1.4 metres above ground. Three types of wooden poles will be utilized in the construction, namely 75–100 mm diameter planted poles, 100–125 mm diameter box anchor poles, and 75–100 mm diameter cross brace poles (1.8 m in length). These poles will be installed at 6m spacing to ensure structural integrity and durability of the fence line.

The fencing system will incorporate galvanised Motto barbed wire supplied in 845 metre rolls, ensuring resistance to corrosion and long-term performance in outdoor conditions. In addition, two types of galvanised wire will be used, namely No. 8 galvanised wire for box anchor assemblies and No. 12 galvanised wire for binding poles and droppers, both contributing to the overall stability and fastening of the fence structure. The installation will also include 1.4 metre droppers

positioned between poles to maintain wire spacing and alignment.

To ensure the stability of the fence, concrete mix (40 kg bags) will be used to secure critical end and anchor poles, particularly at corners and high-tension points. Furthermore, G5 filling material will be applied to reinforce planted poles, enhancing compaction and long-term support within the soil

All materials, labour, and associated activities, including installation, alignment, anchoring, and finishing will be executed in accordance with standard construction practices to deliver a durable and compliant fencing solution within the specified project timeframe.

LOCATION OF THE WORKS

The work area is located on Erf 746, Portion 62, Sea Vista.

SAMPLE OF MOTTO BARBED WIRE FENCE

SAMPLE OF NO. 8 GAUGE (PER 50KG) GALVANISED WIRE FOR BOX ANCHORS
